

Permission to Display EECS Capstone Project Final Report

The OSU School of Electrical Engineering and Computer Science would like to show your Capstone Project Final Report to others as a way to (1) boast about what you have done, (2) show future Capstone students what is expected of them, and (3) show potential OSU students what sort of educational experience they will receive by coming here. We need your permission to do this.

I hereby grant the right to archive my **Capstone Project Final Report** entitled:

Software Product Lifecycle Transformation with Docker Container Technology

in the EECS Archives, and grant the School of EECS permission to display my report in any medium, including but not limited to print and electronic media.

I, as one of the Authors, continue to retain all rights to my Final Report.

If my Final Report includes images of me, I also give my permission to display those images.

☒ Yes

☐ No
